Summary

Accomplished Frontend Developer with a solid foundation in HTML, CSS, JavaScript, and modern frameworks including React and Next.js. Proficient in TypeScript and state management libraries such as Zustand. Proven track record in developing responsive web applications and handling diverse projects. Known for exceptional problem-solving skills, attention to detail, and a commitment to delivering high-quality, user-friendly web applications. Adept at collaborating with cross-functional teams to achieve project goals efficiently.

Education

Lachoo Memorial College

Expected 2025

Bachelor of Computer Application

Skills

Technical Skills: Problem-solving, Debugging, Performance Optimization
Programming Languages: HTML, CSS, JavaScript, TypeScript, Sass
Frameworks and Libraries: React.js, Next.js, Zustand
Soft Skills: Communication, Leadership, Teamwork, Collaboration

Experience

Frontend Developer Inter

Apr 2024 – Jun 2024 Take2Technologies

- Developed and maintained responsive web applications using HTML, CSS, and JavaScript, enhancing user experience and accessibility across various devices.
- Designed and implemented cross-browser compatible interfaces, significantly improving overall accessibility.
- Collaborated with design teams to create visually appealing and functional layouts, translating design concepts into interactive and effective web solutions.
- Optimized website performance, achieving a 30% reduction in load times through efficient coding practices and rigorous testing.
- Managed code and tracked project progress using Git and GitHub, facilitating effective team collaboration and version control.

Projects

Lente-Commerce - **(E-commerce Platform for Glasses)**

- Engineered a responsive e-commerce website for glasses using React and TypeScript, ensuring a seamless and engaging user experience.
- Integrated Stripe for secure payment processing, achieving a smooth transaction flow and high customer satisfaction.
- Implemented Commerce.js for comprehensive product management, including inventory control and cart operations, streamlining the shopping process.
- Applied Zustand for state management, optimizing global state handling and application performance.
- Worked closely with designers to develop an intuitive and aesthetically pleasing interface, significantly enhancing the user shopping experience.

SnapShare – (Photo Sharing Platform)

- Developed a full-stack photo sharing application using **React** and **TypeScript**, delivering a sleek and responsive user interface across devices.
- Leveraged **Firebase** for backend functionality, including real-time database, authentication, and secure cloud storage, ensuring fast and reliable image uploads and downloads.
- Integrated **Firebase Authentication** to allow secure user sign-ups, logins, and social media authentication, creating a personalized and safe user experience.
- Implemented **Zustand** for managing global state efficiently, optimizing image data handling and user interactions.
- Designed intuitive drag-and-drop functionality for easy image uploads, along with privacy settings and sharing capabilities, offering users complete control over their content.

Certifications

Responsive Web Design	FreeCodeCamp, April 2024
JavaScript Algorithms and Data Structures (Beta)	FreeCodeCamp, May 2024
